

# Community Crime Watch Tips:

Keep garage doors closed at all times; scrappers and thieves are looking while you aren't.

(Scrapping is now a citable offense in Griffith.)

Always keep your porch lights on after dark. This helps neighbors watch out for your home and costs less than ten cents a day.

Don't feel foolish reporting any unusual sightings; let the police make the judgement call.

Inform the neighbors closest to you about unusual activity so they can keep watch too.

Report jaywalking and loitering.

Make calls to the police anonymous by saying, "I want to make an anonymous report..."

Inform the police of your vacation absence so they can check on your home while you are gone.

Display a crime watch decal eye level at entry points in your home. These are available at crime watch meetings for \$

FOREMOST-Do not accept crime as normal. It is not and won't be accepted.
